

# RM

## Field Shredder RM 450

RM field shredders are designed for use on cereal farms, machine cooperatives and contractors for shredding crop residues. Available in 4.50 m working widths, these new models complete the existing RM range.

### A robust frame

Consisting of three heavy cross-section beams, the frame will withstand work under the most severe conditions.

### Drive

211 HP central gearbox and double 5+5 belt drive for optimal power transmission.

### RM 450 exclusivity!

Single rotor machine: 4.50 m working width with no unshredded zone!  
Spiral tool arrangement for improved plant suction and distribution of residues on the ground.

### Transport

For road transport, the RM 450 can be equipped with a lengthways mechanical or hydraulic transport device.

## SPECIFICATIONS

## RM 450

Working width (m/ft)	4.52 / 14'10"
Overall width (m/ft)	4.93 / 16'2"
PTO speed (min <sup>-1</sup> )	1000
Power requirement kW (hp)	95 (130)
Maximum power kW (hp)	155 (211)
Free wheel integrated in the rotor	drive gearbox 5+5 SPBX belts
Rotor diameter (mm/inch)	730 / 29"
Rotor speed (min <sup>-1</sup> )	1560
Linear speed of tools (m/s)	60
Number of hammer knives	52
Number of universal knives with stubble pallets	104
Cutting height	by 4 semi-pivoting wheels
Average weight with equipment (kg)	2343

**Standard equipment on the machine:** sheet metal lining - semi-automatic coupling system

**Optional equipment:** lengthways mechanical & hydraulic transport device, reinforced wheels.

In European Union countries, our equipment complies with the European "Machines" Directive; in other countries it complies with the safety regulations applied in these countries. In our brochures, to improve illustration of details, certain protective devices may have been removed. Apart from these particular cases and under all circumstances, these must remain in place in accordance with the instructions given in the instruction manual. "We reserve the right to make changes to our models, their fittings and accessories without prior notification". "The machines and equipment in this brochure may be covered by at least one patent and/or registered design. Registered trademark(s)".
